### **FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits dated March 5, 2012

- W1 – WORKERS COMPENSATION STATE FEE SCHEDULE ADJUSTMENT.
- 4 – THE PROCEDURE IS INCONSISTENT WITH THE MODIFIER USED OR A REQUIRED MODIFIER IS MISSING.

- W3 – ADDITIONAL/PAYMENT MADE ON APPEAL/RECONSIDERATION.

### **Issues**

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. What is the additional recommended payment for the implantable items in dispute?
4. Is the requestor entitled to reimbursement?

### **Findings**

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was requested. Therefore, per §134.403(f)(1)(B), the facility specific reimbursement amount including outlier payments is multiplied by 130 percent. Per §134.403(f)(2), when calculating outlier payment amounts, the facility's total billed charges shall be reduced by the facility's billed charges for any item reimbursed separately under §134.403(g). The facility's total billed charges for the separately reimbursed implantable items are \$19,200.00. Accordingly, the facility's total billed charges shall be reduced by this amount for the purpose of calculating any outlier payments below.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
  - Charge represents implantable items for which the provider has requested separate reimbursement. The charge for this line item will not be considered for calculating outlier payments. Payment for separately reimbursed implantable items is addressed below.
  - Procedure code 72080 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$45.04. This amount multiplied by 60% yields an unadjusted labor-related amount of \$27.02. This amount multiplied by the annual wage index for this facility of 0.9947 yields an adjusted labor-related amount of \$26.88. The non-labor related portion is 40% of the APC rate or \$18.02. The sum of the labor and non-labor related amounts is \$44.90. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$44.90. This amount multiplied by 130% yields a MAR of \$58.37.
  - Procedure code 76001 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
  - Procedure code 62362 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0227, which, per OPPS Addendum A, has a payment rate of \$13,305.14. This amount multiplied by 60% yields an unadjusted labor-related amount of \$7,983.08. This amount multiplied by the annual wage index for this facility of 0.9947 yields an adjusted labor-related amount of \$7,940.77. The non-labor related portion is 40% of the APC rate or \$5,322.06. The sum of the labor and non-labor related amounts is \$13,262.83. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,025, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.206. This ratio multiplied by the billed charge of \$24,172.00 yields a cost of \$4,979.43. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services

based on the percentage of the total APC payment. The APC payment for these services of \$13,262.83 divided by the sum of all APC payments is 99.66%. The sum of all packaged costs is \$1,901.16. The allocated portion of packaged costs is \$1,894.75. This amount added to the service cost yields a total cost of \$6,874.18. The cost of these services exceeds the annual fixed-dollar threshold of \$2,025. The amount by which the cost exceeds 1.75 times the OPPS payment is \$0.00. The total Medicare facility specific reimbursement amount for this line is \$13,262.83. This amount multiplied by 130% yields a MAR of \$17,241.68.

3. Additionally, the provider requested separate reimbursement of implantables. Per §134.403(g), "Implantables, when billed separately by the facility or a surgical implant provider in accordance with subsection (f)(1)(B) of this section, shall be reimbursed at the lesser of the manufacturer's invoice amount or the net amount (exclusive of rebates and discounts) plus 10 percent or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission." Review of the submitted documentation finds that the separate implantables include:

- "ME SYNCHROMEDII PUMP" as identified in the itemized statement and labeled on the invoice as "PUMP 8637-20 SM2 20ML" with a cost per unit of \$9,600.00.

The total net invoice amount (exclusive of rebates and discounts) is \$9,600.00. The total add-on amount of 10% or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission is \$960.00. The total recommended reimbursement amount for the implantable items is \$10,560.00.

4. The total allowable reimbursement for the services in dispute is \$27,860.05. The amount previously paid by the insurance carrier is \$25,491.72. The requestor is seeking additional reimbursement in the amount of \$1,056.00. This amount is recommended.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$1,056.00.

### ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby **ORDERS** the respondent to remit to the requestor the amount of \$1,056.00, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
